

Sex Story: Ginny's Baby-sitting Adventure Part Two

I hurried and got back on the bed and sat with my head down. I felt like crying, I was so embarrassed. He moved in front of me and gently put his hand on my chin and lifted so I would look at him.

"Don't be embarrassed Ginny. You're 18, all the girls do it." Then he brushed my hair out of my face.

"What you are going to do now though Ginny, is wrap your pretty young lips around my cock," he said quietly.

He still had my chin in his hand, looking into my eyes then to my young mouth. I didn't know what to do, I was shocked. I masturbated so many times thinking about him; I couldn't believe this was happening. Still looking at his face, I looked down at his stiff cock and nodded. It was so big; I knew I would have a hard time putting it in my mouth.

I bent down and kissed the head of his cock. He moaned and I saw a little drop come out of his pisshole. So I kissed it again, right on the tip. I felt that drop of pre-cum on my lips and when I pulled away to look at him, there was a tiny strand of it stretching from his cock to my lips. I licked it off my lips.

He groaned again, grabbed my hair and said "Open your mouth and suck my cock."

This time he didn't sound so gentle and kind. I opened my mouth and he thrust his hard dick inside. I was surprised by how it felt in my mouth. It was really hard and very hot. The skin was soft and the head of it was like a thick mushroom cap. He grabbed my hair with both hands, one hand on either side of my head and held me still while he thrust in and out of my mouth.

"Look at me," he commanded.

I obediently looked up at him as he fucked my mouth. Sometimes he pushed it so deep I gagged. I knew he really liked it when I gagged because I would always hear him moan. Wanting to please him, I started trying to swallow his cock. I gagged a lot and that thick back-of-the-throat spit was dripping onto my lap. I really liked having Mr.Santino's hard cock in my mouth, down my throat.

After about 3 minutes, he started thrusting harder and deeper. He went so deep I retched. I'm glad I didn't eat the burgers I made for the kids because I would have puked all over his cock. He moaned really loud and kept thrusting so deep, I retched over and over. He kinda screamed, suddenly pulled his cock out and yelled "Open your mouth slut!"

I opened my mouth and his thick, white [cum](#) started shooting in my mouth. It shot so hard; I felt it hit the back of my throat. I swallowed and when I did, he just kept cumming. On my chin and on my cheek and one shot even went on my forehead. It was so hot and wet. It tasted salty but good. I closed my eyes as I felt the thick load on my forehead start sliding down my spit and [cum](#) soaked face. I used my finger to scoop it up and I put it in my mouth. It was so good.

I opened my eyes and he was reaching for his pants on the floor. He pulled out his wallet, threw a \$100 bill at me and said "Thanks, are you busy next Saturday?"
