

## Sex Story: Sherry At The Truck Stop

I went to my favorite adult toy store and bought a couple of new toys. I was soaked walking through there looking at all the toys I could use.

My kids were home and I wanted to use the toy so I thought of a very naughty place to use it.

I went to the big truck stop outside of the city. I have an exhibitionist streak and the thought of those lonely truckers maybe being able to see me play with myself made me even wetter.

I drove around the huge parking lot, looking for a good place to park. I didn't want any cameras around me. I also didn't want to be too exposed. Well, you know what I mean.

I found a spot away from the trucks, but on the path they take to park.

First I took my tits out of my bra and played with my nipples. I pinched them, making them hard. I looked around me to see how many men would be able to see me from their trucks. The driver's side of the car was toward a fence, the fence surrounded the property. My passenger side was facing 13 trucks. I placed myself so they could see me through the passenger window. I slid back my seat and put my feet up on the seat next to me. I spread my legs, my skirt rode up my thighs. Of course I had no panties.

I opened the bag of toys and took everything out. A little glass butt plug, a g-spot vibe and an 8 inch dildo. I always carry lube in my purse, cause I never know when and where the mood will strike me. I lubed up the little plug and lifted my [ass](#) off the seat. The plug has three balls on it. The first one slid right in, then the next and the last. I was so tempted to [fuck](#) myself with it, but I wanted to play with my [pussy](#). I squeezed my [ass](#) when I sat back down. I heard one of the truck's horns honk.

I pretended not to notice. I didn't want any of them to come to the car. I didn't want to get laid, I just wanted to play. I took out the batteries and put them in my vibe. I looked up and saw five guys sitting in their trucks. Out of the corner of my eye, I saw a big rig pulling into the lot. He drove past me, my legs spread, tits out and plug in my [ass](#). I didn't look up, not wanting to make eye contact. I continued putting the batteries in the vibe.

I ignored him, or her, I don't know. I turned on my vibe and put it on my clit. I cried out, it was too strong. My windows were open, I wanted them to hear me [cum](#). I turned it down and with my other hand I put the big dildo inside me. It took a while to get it all in. I heard a truck coming and again didn't look up. It stopped beside me. A bunch of loud truck horns started, the guys were pissed off they couldn't see.

I kept fucking myself as the guy drove away and parked where he wasn't blocking the view. I fucked myself faster and harder, getting closer and closer to cumming. All eight inches plunging inside. That vibe was on my clit, so strong.

I came hard, squirting all over my car seat. I don't know how loud I screamed. It was such a good [cum](#), I looked up at the drivers and smiled. I took the dildo out and licked my creamy [cum](#) off of it. I heard a door and looked up.

Two guys came out of their trucks and started walking toward my car. I hurried to start my car. I closed my windows, they couldn't see me, my windows are tinted. I drove fast out of there.
